Our apology in this issue has been caused by the loss of time in removing our office. We now have our office in the room over W. B. Howard's Meat Market, on the East side of the square.

### Termination of the Monahan Trial.

In St. Joseph on Thursday last, the jury in the case of the State vs. Hugh Monahan, returned its verdict and informed the Judge there was no probability, of their acquittal, whereupon they were discharged. For three days they had been endeavoring to come to a unanimous conclusion, but one of their number, despite the opinions of eleven honest men who were opposed to him, had made up his mind that the defendant should not suffer from a verdict at his hands. Whatever the public may say concerning this matter, we have no reflection to make upon the gentleman who hung the jury, but desire to say a thing or two concerning the practice of courts permitting juries to disperse before they have heard all the evidence, or before they have returned a verdict. It is true the court asks the parties if they have any objections to the jury dispersing, which is almost invariably answered in the negative, because no attorney cares to prejudice his case with the jury by objecting; as his objections are liable to be construed into an insinuation that he is afraid the jury will be corrupted with money, or influenced by outside pressure or public opinion.

If his objection be not so construed by the jury all the unpleasantness of being kept together until a verdict is rendered is laid at his door, and would often have its influence against him in their determining the case before them. The juror who is incapable of receiving a bribe is disgrimed and disappointed at being thus denied the privilege of making or receiving overtures in that direction, and will of course throw his vote and influence against the party interposing the barrier. But if the Judge had ordered the jury into the custody of the Sheriff without asking the parties litigant, his vote might have been cast with the eleven honest jurors and a case disposed of that will take days or weeks, to try over again at a large expense to the parties interested, besides delaying other business of the court. Suppose a case in which a party is confident there is a juror on the panel who can be bribed. Is it not a great hardship on this party to compel him, to either permit the jury to disperse, and thus give this dishonest juror a chance to communicate with the opposite side, or else incur his displeasure by objecting?

### James Wrist of Bolckow was in town on Monday and called on us.

### It was a fortunate idea that crept into the meddles of our County Court to make the purchase of that poor house farm for us all have to retire there shortly if our taxes are not lessened and more judiciously expended.

One of the acts of Gov Brown of which Judge Herren thinks "will decent Radicals ought to rejoice" was the pardoning of Thomas F. Campbell one of the bushwhackers who murdered Captain Henry in 1863.

From Conductor Fred Marcy we learn there remain but about ten miles of track to be laid to complete this branch of the K. C. St. Joseph and C. B. R. R. to Creston, on B. Mo. River R. R. thus giving us a direct route to Chicago and the East and more than one train per day each way through Savannah.

BENEFITS OF ADVERTISING.—A gentleman of undoubted veracity, called at our office this week and informed us that by one little advertisement in a newspaper which cost only a few dollars a year, saved him \$100 in one case. Emulate and do likewise.—*Villager Journal.*

The Chillicothe Tribune announces that Hon. J. F. Asper, ex-member of Congress from this district, is opposed to the reunion of the Republican party in this State, and favors the continued existence of a separate Liberal Republican party. The Tribune further states that Col. Asper is opposed to Grant, opposed to the Ku-Klux law, and in favor of what is commonly known as "free trade."

The steamer Tom Jasper was sunk below Columbus, Ky., on Thursday evening; it belonged to the Northwestern Union Company, and was valued at \$50,000. Insured in the Cincinnati offices for \$6,000.

The steamer Andy Johnson which sank above Hannibal on Thursday last was owned by the Krook and St. Louis Packet Co., and was valued at \$10,000. It was not insured.

Judge Herren is out in a two column article in the New Era inviting "liberal Republicans," and the honest portion of the Radicals, to join in the work of electing a ticket to be composed of Democrats, and Republicans, in opposition to the regular Republican ticket next year. He pledges the "honest co-operation" of the Democracy with the movement, and is very confident of success—but there is a possibility of his being mistaken in the matter of success. It will be remembered by our readers that the Judge is one of those gentlemen who jumped into the Democratic party, along with Andy Johnson a few years ago, because they thought the long promised reaction had come, and that party was invincible. They arrived there just too late, just after the tide had turned, and that party was going under. These men did not go to the Democracy from principle, nor do they now propose to confederate with Republicans from principle. It is office they are after; and they are willing to do anything to be anything or promise anything, for the sake of office.
